Investigación, validación y casos clínicos sobre Realidad Virtual

Ivan Alsina-Jurnetn, José Gutiérrez Maldonado (2010).
Influence of personality and individual abilities on the sense of presence experienced in anxiety triggering virtual environments.
Journal of Human-Computer Studies, 68, 788-801.

A Controlled Study of Virtual Reality Exposure Therapy for the Fear of Flying.
Journal of Consulting and Clinical Psychology, 68 (6), 1020-1026

Patients preferences regarding three computer-based exposure treatments for fear of flying.
Behavioral Psychology, 23 (2), 265-285.

Applications of Virtual Reality in Clinical Psychology: Illustrations with the treatment of anxiety disorders.
Haptic Virtual Environments and Their Applications, pp. 7-11.

Public speaking in virtual reality: facing an audience of avatars,

Virtual reality cognitive behavior therapy for public speaking anxiety: a randomized clinical trial,

Vlasios Brakoulias (2013).
Virtual reality can help to develop a new reality,

Cognitive-behavioral treatment and antidepressants combined with virtual reality exposure for patients with chronic agoraphobia,

Isabel L. Kampmann, Nexhmedin Morina, Paul G. M. Emmelkamp, Mark A. Neerincx, Willem-Paul Brinkman (2014).
Controlling Social Stress in Virtual Reality Environments,
PLoS.org, 9(3), e92804.

Virtual Intelligent Agents to Train Abilities of Diagnosis in Psychology and Psychiatry,
New Directions in Intelligent Interactive Multimedia, 142, 497-505.

A virtual reality system for the treatment of stress-related disorders: A preliminary analysis of efficacy compared to a standard cognitive behavioral program,
International Journal of Human-Computer Studies, 69 (9), 602-613.

Efficacy of Virtual Reality Exposure Therapy in the Treatment of PTSD: A Systematic Review,
PLoS.org, 7(12), e48469.
Virtual reality exposure therapy for active duty soldiers,  
Journal of Clinical Psychology, 64(8), 940-6.

Combat-related post-traumatic stress disorder: a case report using virtual reality exposure therapy with physiological monitoring,  
Cyberpsychology and Behavior, 10(2), 309-15.

Giuseppe Riva (2003).  
Virtual environments in clinical psychology,  
Psychotherapy: Theory/Research/Practice/Training, 40 (1/2), 000-000.

Daniel Freeman, Jonathan Bradley, Angus Antley, Emilie Bourke, Natalie DeWeever, Nicole Evans, Emma Černis, Bryony Sheaves, Felicity Waite, Graham Dunn, Mel Slater, David M. Clark (2016).  
Virtual reality in the treatment of persecutory delusions: randomised controlled experimental study testing how to reduce delusional conviction,  

Virtual reality exposure therapy for social anxiety disorder: A randomized controlled trial,  

Virtual reality exposure therapy for PTSD symptoms after a road accident: An uncontrolled case series.  

An adaptive display for the treatment of diverse trauma PTSD victims.  

Using virtual reality for PTSD treatment in criminal violence victims.  

Virtual reality for enhancing the cognitive behavioral treatment of obesity with binge eating disorder: Randomized controlled study with one-year follow-up.  
Journal of Medical Internet Research, 15(6), e113.

The Journal of Clinical Psychiatry, 68(11), 1639-1647.

The use of virtual reality in the study, assessment, and treatment of body image in eating disorders and nonclinical samples: A review of the literature.  
Body Image, 9(1).

Virtual reality based treatments in eating disorders and obesity: A review.  
Journal of Contemporary Psychotherapy, 43(4), 207-221.

Virtual reality exposure therapy for post-traumatic stress disorder and other anxiety disorders.  
Current Psychiatry Reports, 12(4), 298-305.

Virtual reality exposure therapy using a virtual iraq: Case report.  
Efficacy of virtual reality exposure therapy in the treatment of PTSD: A systematic review.
Plos One, 7(12), 1-7.

Development and testing of virtual reality exposure therapy for post-traumatic stress disorder in active duty service
members who served in Iraq and Afghanistan.
Military Medicine, 177(6), 635-642.

Exposure therapy with and without virtual reality to treat PTSD while in the combat theater: A parallel case series.
CyberPsychology, Behavior & Social Networking, 13(1), 37-42.

A randomized, controlled trial of virtual reality-graded exposure therapy for post-traumatic stress disorder in active
duty service members with combat-related post-traumatic stress disorder.

Affective outcomes of virtual reality exposure therapy for anxiety and specific phobias: A meta-analysis.

Clinical validation of a virtual environment for normalizing eating patterns in eating disorders.
Comprehensive Psychiatry, 54(6), 680.

Virtual reality exposure therapy for anxiety disorders: A meta-analysis.
Journal of Anxiety Disorders, 22(3), 561-569.

Comparing virtual reality exposure therapy to present-centered therapy with 11 U.S. Vietnam veterans with PTSD.
CyberPsychology, Behavior & Social Networking, 13(1), 49-54.

Effectiveness of virtual reality exposure therapy for active duty soldiers in a military mental health clinic.

Virtual reality exposure therapy for combat-related posttraumatic stress disorder.
Computer, 47(7), 31-37.

Virtual reality exposure therapy for combat-related posttraumatic stress disorder.
